## CUISINE

Le Méridien Bora Bora has one of the finest candlelit ambience dining experiences in Bora Bora at the Le Tipanié Restaurant, of which features themed buffets and A la carte dinners depending of the day.

At the "Te Ava Restaurant" you will be able to eat with your feet in the sand. During dinner service, the restaurant offers a menu directly inspired by the "bistronomie" phenomenon where a traditional quality reveals itself in a new style. A beach restaurant that looks like a real Tahitian village, for a complete escape.

With the Hapaina Bar, enjoy the pleasure of an oenological initiation through more than 100 references of wine. While sitting on contemporary sofas, or atop a high stool, the wine, champagne, and digestive are tasted in a vibrant atmosphere, between knowing smiles and a mindful service. To pair your glass of red, rosé, or white wine, choose from our selection of tapas, made of imported European products and a Polynesian twist!

You will appreciate the Miki Miki Bar for a sunset cocktail and snacks, thanks to its original architecture and its ideal point of view to the Otemanu Mont. If you want to be close to the swimming pool, you will prefer the Pool Bar; the best place for your daily refreshing drinks and food.

Unlock the destination and allow our timeless island beauty to surround and entertain you all while immersing yourself in all that is Le Méridien Bora Bora.

## TURTLES AND ECOLOGICAL CENTER

Located next to the inner lagoon, the Ecological Center remains unique in its conception. This project started in 2000 when an injured turtle was brought by a guest to the hotel as it needed care. The Turtle Center project was born with the creation of a center dedicated to the protection and care of the local marine life. Since then, Le Méridien Bora Bora has continuously invested in a unique program focusing on turtle care and on teaching fauna protection to the next generations.

In 2012, Le Méridien Bora Bora decided to go one step further and created the Ecological Center with a coral preservation program where guests of Le Meridien Bora Bora can come and learn more about this protection center.

The Ecological Center is now open every day and offers a daily visit at 10:30AM (complimentary to our guests) with a turtles feeding. Guests meet the biologists who describe their central mission of protection and describe the characteristics of the local species living in our lagoons and can learn more about Bora Bora marine life by visiting our different areas such as the touch pool, the museum, the educational aquarium tanks, and the inner lagoon.
