LE BLIZZARD HOTEL & SPA - VAL D'ISÈRE

The hotel is, above all, a place of relaxation and change of style where luxury comes with elegance. The style is Alpine Chic and as ever enhanced with woodwork and new warm-coloured weaves. Every detail of decoration was designed to create a mountain atmosphere where one feels at home.

DESTINATION

Located at 1,850 m high, Val d'Isère (French Alps) remains an authentic resort, well-known for its quality of life, many mountain-style chalets with wood and stones, and a traditional village. Val d'Isère's slopes have always been the setting for great sporting achievements, be it for the Olympic Games, the «Criterium de la Première Neige» or the World Alpine Ski Championships. The hotel stands in the heart of the resort, **100 metres away from the slopes and ski lifts** and also a few steps from the old centre of the village. It is a family owned and managed property, fully renovated and redecorated. **It is open from December to May. Property suitable for families and couples.**
